Hi Jonathan:

It didn't take much to convince us that your Aqua Mizer Protector Flush System was a product that would solve our toilet bowl issues. Since installing the system in all the rooms of our hotel, we have not had one call for a leaky toilet or one toilet tank flood.

We will soon be able to provide you water-saving data, but we already know we are saving enough in less than a year to easily pay for upgrading the entire convention center.

At our recommendation, some other Westin Hotels are beginning to install Aqua Mizer. Our corporate parent Starwood is very focused on sustainability, and we've made them aware of your product.

Michael
